FEELING COOL

RESIDENTIAL & LIGHT COMMERCIAL  
AIR CONDITIONING

► WELCOME

# FEELING COOL

here we are again!

identifying Sendo  
by Michalis Gavriilopoulos

Sendo in Japanese means freshness, and that was our basic inspiration to start working on our dream. The challenge was one from the beginning: how to bring this freshness into your home and workplace. Today Sendo changes the quality of the air that we live in and breathe. Using innovative technology, Sendo's products offers you unique value solutions providing superior air quality to your everyday life.

Sendo gives you quality in your life.

Residential and light commercial air conditioning

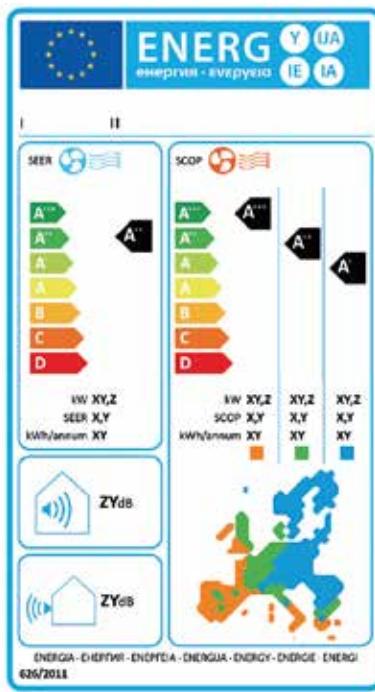

# ► ENERGY LABEL

## ENERGY SAVING

Old label

New label

### New Requirement for Energy Marking (EU) 626/2011

Three climatic zones for heating  
(The middle zone is necessary, while the hot and cold zones are optional).

Seasonal performance  
(performance based on multiple partial load calculations). Sound power level.

The nominal performance concerns only one nominal condition.

Seasonal performance concerns a whole heating and cooling period and indicates more accurately the actual operation.

## ENERGY CLASSES

| Energy Efficiency Class | SEER                    | SCOP                    |
|-------------------------|-------------------------|-------------------------|
| A+++                    | SEER $\geq$ 8,50        | SCOP $\geq$ 5,10        |
| A++                     | 6,10 $\leq$ SEER < 8,50 | 4,60 $\leq$ SCOP < 5,10 |
| A+                      | 5,60 $\leq$ SEER < 6,10 | 4,00 $\leq$ SCOP < 4,60 |
| A                       | 5,10 $\leq$ SEER < 5,60 | 3,40 $\leq$ SCOP < 4,00 |
| B                       | 4,60 $\leq$ SEER < 5,10 | 3,10 $\leq$ SCOP < 3,40 |
| C                       | 4,10 $\leq$ SEER < 4,60 | 2,80 $\leq$ SCOP < 3,10 |
| D                       | 3,60 $\leq$ SEER < 4,10 | 2,50 $\leq$ SCOP < 2,80 |
| E                       | 3,10 $\leq$ SEER < 3,60 | 2,20 $\leq$ SCOP < 2,50 |
| F                       | 2,60 $\leq$ SEER < 3,10 | 1,90 $\leq$ SCOP < 2,20 |
| G                       | SEER < 2,60             | SCOP < 1,90             |

| COMPARISON OF REFRIGERANT'S PROPERTIES: |                                    |           |           |
|---|------------------------------------|-----------|-----------|
|   | R22                                | R410A     | R32       |
| ODP                                     | 0,05                               | 0         | 0         |
| GWP                                     | 1700                               | 2088      | 675       |
| Toxicity                                | Non-toxic                          | Non-toxic | Non-toxic |
| Flammability                            | A1                                 | A1        | A2        |
| Availability                            | High                               | High      | High      |
| Charge volume (compare with R22)        | 1,0                                | 0,8       | 0,56      |
| [ GWP ] More environment friendly       | [ CHARGE VOLUME ] Less refrigerant |           |           |

#### More eco-friendly

The global warming coefficient of the refrigerant R32 is equal to 1/3 of the R410A. Compared to the traditional R410A, the R32 is more environmentally friendly. It is a one-component refrigerant and is thus easier to manage and recycle.

#### Higher efficiency

Under the same conditions and operating frequency of the compressor, R32's cooling efficiency and energy efficiency is about 5% higher than R410A's. Therefore, R32 products are more energy efficient.

#### Smaller filling volume

Compared to R410A and R22, refrigerant R32 requires a smaller filling volume.

*The F-Gas European regulation (517/2014) has been in force since 1st January 2015 and will progressively cease the use of hydrofluorocarbons (HFCs) in future cooling and heating systems. Sendo already offers a new cooling and heating system that operates with R32 refrigerant, which will be the alternative to the R410A in the coming years.*

► SPECIAL FEATURES

# SELF CLEANING

split function

The overall process helps in keeping the inner part of the unit clean and prevents the growth of bacteria.

Function  
mark icon

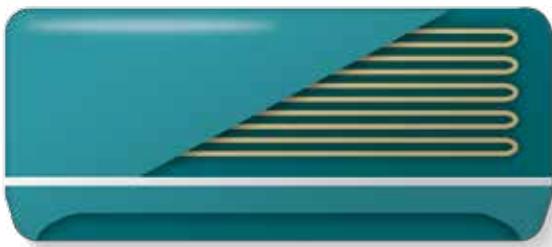

With this function activated, the indoor unit operates in low speed fan cooling mode for a certain period of time during which the condensation water will remove the dust from the evaporator fins. The unit will then continue into low speed fan heating mode by drying the inner part of the indoor unit. Finally, the unit passes into the simple ventilation mode and removes the remaining humid air.

► SPECIAL FEATURES

# GOLDEN FIN

split function

It withstands rain,  
sea air and other  
corrosive  
environments.

USE IN CORROSIVE ENVIRONMENTS

Golden Fin

Common Fin

TIME

Function  
mark icon

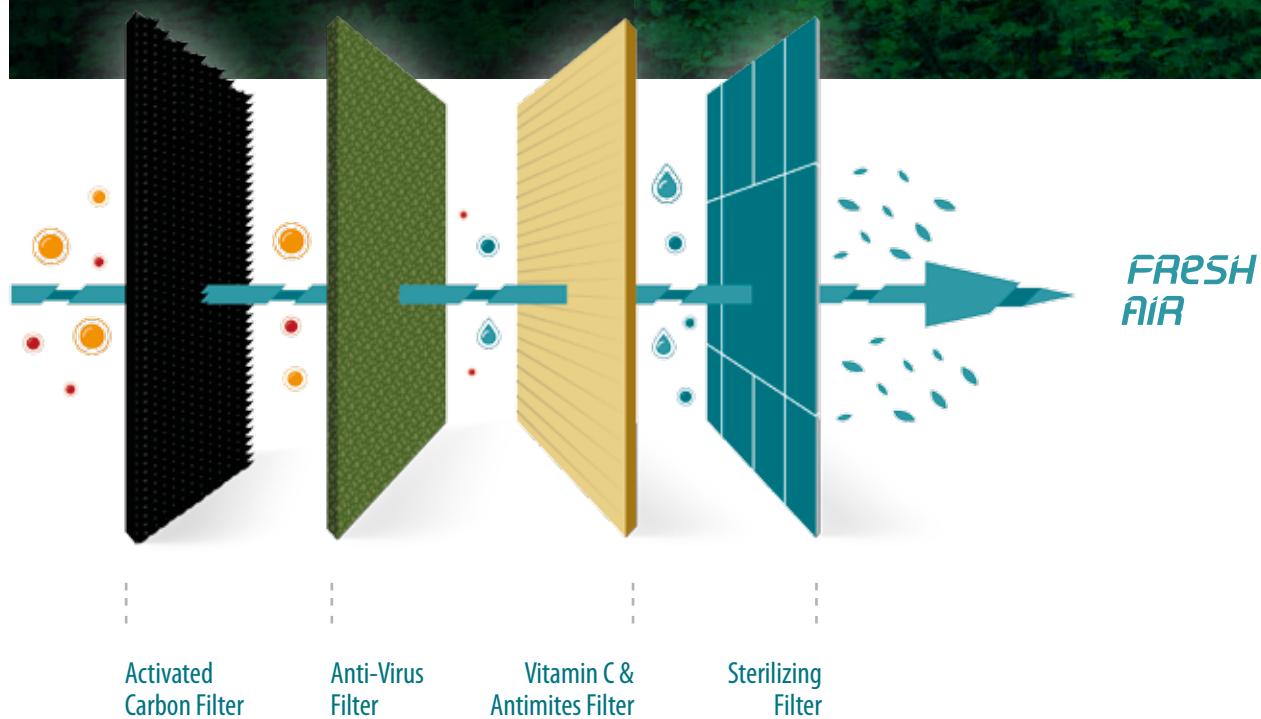

The golden hydrophilic fin can improve heating efficiency as it accelerates the process of defrosting. The unique anti-corrosion gold coating on the condenser can withstand rain, sea air and other corrosive environments.

► SPECIAL FEATURES

# FRESH AIR

fresh air technology

Hcho → Adsorb → Crystallize → Resolve

Function  
mark icon

#### Vitamin C & Antimites Filter:

The vitamin C filter softens the skin and reduces the stress level as it releases vitamin C in the area. The service life of the vitamin C filter is approximately 2 years.

Function  
mark icon

#### Sterilizing Filter:

The sterilization filter exterminates all bacteria.

► SPECIAL FEATURES

The company reserves the right to change the technical characteristics without notice.

“who will tell whether one happy  
moment of love or the joy of  
breathing or walking on a bright  
morning and smelling the fresh air,  
is not worth all the suffering and  
effort which life implies.”

*Erich Fromm*

► WIRELESS  
REMOTE  
CONTROLLER

**01. ON/OFF**  
Air conditioner activation & deactivation.

**04. U/D SWING**  
Moving upstream and downstream air.

**07. HEAT**  
Heating mode selection.

**02. MODE**  
Operating mode selection.

**05. L/R SWING**  
Moving airflow left and right.

**08. COOL**  
Cooling mode selection.

**03. TIMER**  
Start / end timer.

**06. + & -**  
Toggle temperature range by 1°C.

**09. SPEED**  
Fan volume adjustment.

**10. MENU & OK**  
Additional functions menu
